

The navigation system as ~~elaimed in one of the preceding claims~~ defined in claim 10, wherein the navigation system contains an audio output unit (4) and the traffic restrictions are output audibly.

Claim 10 (Currently Amended)

A navigation system carried on board a motor vehicle, wherein the system comprises

- (a) a central processor;
- (b) an input and an output unit connected to the central processor;
- (c) an information storage element connected to the central processor, which storage element contains;
 - (i) a data record of map data;
 - (ii) traffic restriction information applicable to the vehicle only on roadway which is open to travel by the vehicle;
- (d) a display unit connected to the central processor and displaying the traffic restricted information in numeric or alpha-numeric characters constantly during the period of restriction applicability; and
- (e) a wireless mobile telephone operably connected to the storage element in the navigation system, whereby the information about traffic restrictions is retrievable from a stationary transmission station in a mobile radio network and is upgradeable.

REMARKS

The present amendment cancels claims 1-9, 11 and 13, 14 and amends the only remaining independent claim 10, as well as claims 12 and 15, which depend from claim 10.
